

# SC40RE

Scanjet tank cleaning equipment

## Product Summary

The **SC 40RE** is an electrical driven externally powered automated tank cleaning machine. Both 2 nozzle and 4 nozzle versions are available with all wetted parts constructed of 316 stainless steel and other highly corrosion resistant materials.

As none of the cleaning fluid is used to power the **SC 40RE**, the pressure drop across the machine is minimal. As a result, the fluid energy from the cleaning supply pump is maximised.

The **SC 40 RE** is a very rugged and durable cleaning machine; designed for demanding cleaning applications, where reliability and long service intervals are required

## Quality Control, Compliances & Certificates

The **SC 40RE** is produced in accordance with ISO 9001 Quality Standards and our certificate of conformity and accreditation is available upon request.

Additionally, the **SC 40RE** conforms to United States ASME standards for construction and other... available upon request

## Typical applications for the SC 40RE

- Ethanol storage and process tanks
- Paints and coatings process vessels
- Over-the-road tankers and railcars
- Totes and IBC's
- Batch blending tanks

## KEY FEATURES

### SC40RE

- Removable drive
- Easy installation
- Controllable rotation
- 2 & 4 nozzle design
- Very low pressure drop
- Quiet operation
- CE rated
- Self draining
